MedReader is a free RSS Reader and RSS Publishing Solution that is tailored to the Medical & Healthcare Industry. With version 4.0, Medical Professionals and Healthcare Professionals will have more functionality and more resources than ever before. MedReader, [www.medreader.com](http://www.medreader.com), is the world's only medically oriented RSS Reader and RSS Publishing system online. MedReader is broken down into 4 editions for Physicians, Business, Nursing, and Allied Health professionals. Each edition of MedReader is then subcategorized to provide specialty specific information that is suitable for all Medical and Healthcare Professionals.

MedReader is a RSS Reader, Podcast Client, RSS Directory, and RSS Publishing solution built specifically for the medical and healthcare community. Information is categorized and sub categorized on a variety of topics to include Cardiology, Therapy, Psychiatry and more.
