Pageville shopping cart plug in for EasyWebEditor

Add a shopping cart and secure credit card payments on your Web site with this easy to use plug-in for EasyWebEditor, 1SITE and HyperPublish. No programming skills needed, fast and easy set up, freeware edition ok for PayPal - and you can test all functions w no payment required. Unlike conventional e-commerce solutions, there is no complex software to install (and then learn how to use), no server-side programming to do and no hassles. Setup is fast and easy.
