## TWG Flash Uploader

The TWG Flash Uploader is a very comfortable way for your users to upload file to the remote server. Because it's based on flash it can be used by almost everyone.

You can simply upload files by selecting files on your harddrive and simply press the upload button.

The flash has a remote view with preview, a progress bar, Client side filtering for file extensions, image resize option, optional login screen ...

Enhance the upload for your users with this easy configurable flash. They only need Flash 8.
