IP2Location Ruby Library

IP2Location is a Ruby library that enables the user to find the country, region, city, coordinates, zip code, ISP and domain name that any IP address or hostname originates from. It has been optimized for speed and memory utilization. Developers can use the API to query all IP2Location™ binary databases for applications written in C or supporting static/dynamic library.

Resource Specifications:

Version:	2.1.1
Platform(s):	linux, windows, freebsd, osx, sun
Date Added:	April 06, 2007
Last Updated:	April 06, 2007
Author:	IP2Location

Rating:

Avg. Rating:	0.00 (out of 5)
Total Votes:	0
