Velakor Feeds

Feeds is an open source Ruby on Rails feed reader application.

Features:

- * No full page reloads are required when reading/searching feeds
- * Has 2 different view types for reading feeds (2 column and 3 column layouts)
- * You have the option to publish a RSS feed of your starred items
- * Different views are available for each feed/folder (Unread/Starred/All/Recent)
- * Search function for each folder/feed/view
- * Import OPML function
- * Sortable tree of your feeds/folders
- * Complete unread counts are displayed for each folder/feed

Ajax is used in many places to improve the speed of the application.
Stay tuned for more cool features to come in future versions.
