RSS Library for .NET - Personal Edition

The RSS Library for .NET is a set of .NET components which will quickly enable your server or desktop .NET application to read, create, merge and generally manipulate RSS feeds. Written in pure C#, the RSS Library for .NET is fully managed and incredibly fast and fully supports RSS .90, RSS .91, RSS .92, RSS 1.0, RSS 2.0 and RDF (1.0) protocols. The Library's object-orientation provides any feature necessary to implement a feed application.
