## BBCode Gradient Text Creator

This online program changes regular text into gradiented text. Choices are black/red, black/green, black/grey, black/orange, black/blue. update 11/14/04 - Added more options. Italicized text, bold text, underlined text, size of text, font, and URL support. I fixed a small bug where there is a blank space and line after the output. update 12/2/04 - Added support for forums with dark backgrounds. Added a rainbow gradient.

### Resource Specifications:
